

Astro Boy

Recoil

If you insist on situations that make you cry

it's not real

it can be fear

it's in your eyes

it can be here

the complications affect your mind

Mistake? One more

A fewer days

A fewer time

Astro Boy

???

???

I want you

I want your house

I kiss you

I

I was always there

I was there

I was alone

I was small

it was real

it's so true

I can feel, you can feel

I

How mere

How mere

How mere

How mere

If I insist on situations that make you cry

it's not real

it can be fear

it's in your eyes

it can be here

the complications affect your mind

Just take one more

A fewer days

A fewer time
