

# One and Only

## Yaakov Chesed

I see you with me  
Everywhere I go it's all  
All around me you're  
All around me be  
One with me  
Every time and place I

Can't live without you  
Can't be without you  
You you are my one and only  
Me creator my only savior  
You you are my once and only  
My creator my only savior

I look around me  
Sing to the empty world outside  
Empty people  
People feel so empty  
See all creation  
Every person everything

Every moment  
You're in every moment  
You you are my one and only  
My creator my only savior  
You you are my own and only  
My creator my only savior
