This Time It's War

Bolt Thrower

Intimidation you can't take much more,
No compromise - tis time its war.
Take none alive - their battle cry roars,
Nowhwre to hide - this time its war.
Face the fear that grips your mind,
The final conflict - the end of mankind.
Read the hatred deep witin their eyes.
It's your time to die you now realise.
What has occured to man,
Just isn't how you planned,
Enslaved by machinery,
Submit to technology:
Our future lives - Mankinds entity,
Lies in our hands - Together we must face reality.
A ruined world of lost identity,
Technological supremacy.
