Let Me Have It All

Color Me Badd

You have turned into a prayer
I can feel you almost there
Closer, closer to the top
Lookin' down is quite a drop
Let me have it all
Let me have it all
Come on let me have it all
Let me have it all
Hold no grudge from yesterday
It got up and flew away
I want my cake and eat it too
Can't wait to stick my fork in you
Make me feel just like a king
Everything is everything
Come on let me have it all
Let me have it all
Let me have it all
I've got to have it all
You have turned into a prayer
I can feel you almost there
You set up a barrier, yeah
Don't ya know I'll marry you
Just to be near you is to be
Let me have the rest of me
Closer, closer to the top
Lookin' down is quite a drop
You've got, got to
Let me have it all
Let me have it all
Wanna let me have it all
Let me have it all
Let me have it all
Let me have it all
Let me have it all
...
