

Falling In Love With You

[Livingston Taylor](#)

Yes, I'm falling, ooh, ooh falling
Falling in love with you
Was easy as the day
A down man looked up to see
Nice things in his way Falling in love with you
Was like that first sunrise
Was it in my window
Or was it in your eyes And I call myself an island
And luckily I find
That you're the sea around me
And are with me for all time Falling in love with you
Was learning how to cry
And telling you I'm all alone
Ooh please don't pass me by Falling in love with you
Was learning how to see
That you are you and I am me
And how fine that can be And I call myself an island
And luckily I find
That you're the sea around me
And are with me for all time
