Ayyye ooohhooo....you  
All want, all I want is youu, you , yooou  
Ahhh Vivian tell me what you need Flowers, candy I don't need it  
walks in the park baby you can keep it  
I don't need the dance and a song  
I know you looking at me like what wrong, With her! But in the end, all I remember is the good love  
that good love  
everybody's different this is just my opinion, we can fast  
forward, let's skip this beginning cause all I want is you, just you you  
all I want is you, just you  
we don't need the lights, camera, action  
only you and me with all of this passion baby  
all I want is you, just you finger tips undressing your clothes  
kisses got you curling your toes  
it's such a sexy freaky view when you're rowdy  
you was ..... I was..... oohhoo  
loving on the stairway, loving on the elevator  
yearning for a .....  
all I care to do is please you  
now wrap your legs around me and say
