

Hate Love

Nubomb

Hook

All we do is fight and fuck
And lately, I feel like Iâ€™m wasting time just kidding myself
You bring out the worst in me.
Because Iâ€™m just so blinded by love
Itâ€™s got me coming back every time that you put me through hell
You fucking put me through hell
Itâ€™s pitiful weâ€™re driven by this physical attraction
Passionate rage fucking in faction.
So just get yourself done up
Letâ€™s just end it with sex like we always do
Because I fucking hate loving you.

Verse 1

But I still fucking love her to death
If I was dying
And she asked
Iâ€™d give her my last breath
Kiss me
Tell me lies
Tell me how I want you to feel inside
I just want to feel right for once
Feel like the chick Iâ€™m sticking is right to trust
It's not just lies and lust
The way your eyes take away the pain
Plays with my brain waves
Makes me feel crazy
Yeah, thatâ€™s how you fuck with me.
And I donâ€™t want her to feel like she stuck with me
But I feel I owe her my life the way that she stuck with me
Through the fucking rain
Through the pain
Through the games
Sheâ€™s the reason I hesitate putting a bullet in my fucking brain
Iâ€™m saying whatâ€™s life if your ass ainâ€™t living it
It should be whatâ€™s life if her ass ainâ€™t in it
Instead, we just fight and let our lives pass us by
Every time I make you cry it just hurts inside

And for what?

Hook

All we do is fight and fuck
And lately, I feel like Iâ€™m wasting time just kidding myself
You bring out the worst in me.
Because Iâ€™m just so blinded by love
Itâ€™s got me coming back every time that you put me through hell
You fucking put me through hell
Itâ€™s pitiful weâ€™re driven by this physical attraction
Passionate rage fucking in faction.
So just get yourself done up
Letâ€™s just end it with sex like we always do
Because I fucking hate loving you.

Verse 2

Letâ€™s have another fight about money
Another flight about us
Another reason to leave me
Because we fight about trust
It feels like nothingâ€™s ever good enough
Itâ€™s like all we got left between us is lust
Thatâ€™s why we fight and cuss
I remember people used to wish they were us
Wish they had what we had
But now they just agree that were fucked
But fuck em
Iâ€™d rather be upfront
Than frontin
Iâ€™d rather try to work it out with you
Than be unhappy with nothing
Because I feel like you fucked me
And I forgave you for that
Pull the knife out of my back
And put it back in your hands
And ever since that
It feels like you still donâ€™t give a fuck
And you turn into a bitch when we donâ€™t do what you want
People change
I was just hoping you change for the better
Instead you turned into a person with not patients and bad temper
I know itâ€™s probably fucking too late
But while your looking for the next best thing
Iâ€™m rapping right in your face.

Hook

All we do is fight and fuck
And lately, I feel like Iâ€™m wasting time just kidding myself
You bring out the worst in me.
Because Iâ€™m just so blinded by love
Itâ€™s got me coming back every time that you put me through hell
You fucking put me through hell
Itâ€™s pitiful weâ€™re driven by this physical attraction
Passionate rage fucking in faction.
So just get yourself done up
Letâ€™s just end it with sex like we always do
Because I fucking hate loving you.
