

# Into the Floor

## The Afghan Whigs

In spades (2017)  
Into the flood  
When It burns  
And falls into the floor  
Feel it rise  
And come and get some more  
I'll remember you always this way When it seems  
Your back's against the wall  
Tilt the sky-  
And under you will crawl  
I'll remember you  
Is It late  
Or is it yet to come?  
Will it wait  
Or burn into the sun  
I'll remember you always this way And suddenly  
It was meant to be  
When it burns  
And falls into the floor  
Feel it rise  
And come and get some more  
I'll remember you always this way And suddenly  
A summer breeze
