

# I Tried

## Ledisi

(V1)

Phone calls, hang ups  
Breakdowns, break ups  
People always makeup, but sometimes they never lie  
When the pain is too deep  
So bad that you can't sleep  
Fussin', fightin'  
Can't turn back what's already been done

{HOOK}

We don't know what to say  
We don't know what to do  
You gotta move on  
Try your best and we can turn it loose  
Time for you to let it go  
How can you say no?  
You gotta move on  
Can't turn back what's already been done

(CHORUS)

I tried  
You tried  
We tried  
It's time to move on  
(Ya gotta move on)

I tried  
You tried  
It's time  
Time to move on

(V2)

We said we would  
Always be one's  
Different journey  
So many changes  
It was meant to be  
My soul's burning  
Tryin' to let go of the pain  
No more screamin'  
Can't take back what's already been done

{HOOK}

We don't know what to say

We don't know what to do  
You gotta move on  
Try your best and we can turn it loose  
Babe, ya know I care about you  
But, I gotta live without you  
You gotta move on  
Can't take back what's already done

{BRIDGE}

I gotta get over you  
What we had is through  
Baby, I don't wanna do this  
Ain't got no regret  
Now it's time or never  
Baby, I don't wanna do this  
WE TRIED!!!!!!!!!!!!
