

Bow Ties Are Cool

Alex Carpenter

The library has a swimming pool
Got an allergy to following rules
We're headed for a huge collision, with an interstellar physician
He's the type of man you wait for
Timeless quips and witty rapport
Headed for a huge collision, with an interstellar physician
Cause "bow ties are cool" he said
Suspend your disbelief
Come fly with me
Because "bow ties are cool" he said
All of space and time
It could be mine
Sontarans and cybermen
Somehow the daleks are back again
We're headed for a huge collision, with an interstellar physician
He's got the TARDIS, sonic screwdriver
He'll regenerate the world
He's a survivor
Headed for a huge collision, with an interstellar physician
Cause "bow ties are cool" he said
Suspend your disbelief,
Come fly with me
Because "bow ties are cool" he said
All of space and time,
It could be mine
His hopefulness is deadlock sealed
He's a madman with a box
He makes it right,
He makes it real
Whoooooaaaaa
We're headed for a huge collision, with an interstellar physician
"Bow ties are cool" he said
Suspend your disbelief
Come fly with me
Because bow ties are cool
All of space and time
It could be mine
