

# Love On You

## Jagged Edge

Girl if you want love  
And you need it now girl  
I'm the one you call  
Name on the speed dial girl  
Want love  
Dont look no further  
You always watchin me  
And never hit the curb girl  
I see when you come  
And you want that real sh-  
Same place you come  
When you want one real quick  
Oh uh uh oh uh uh oh  
You know thats how it go, thats how it go

You're my love angel  
Swooping down on me  
Keep you in my life just to whip that thing on me  
Then so, shawty I know (shawty I know)  
And you no no no noooooo

[Chorus]

When you need someone to love on  
I'm the one you call on  
When you need someone to love on, girl  
When you need someone to hold on  
I'm the one you hold one  
When you need someone to love on, girl  
When you need someone to love on  
I'm the one you love on  
When you need someone to love on, girl  
When you need someone to rub on  
Touch you and love on  
I'm the one you love on girl  
I'm the one you love on [x2]  
I'm the one you love on girl  
I'm the one you love on [x2]

I'm the one you love on girl

My car cream, my wheels mean  
Just cause I know you love it when I'm ridin clean  
Got big dreams, she fit right in  
She single lady, waste no time just gettin' in  
And my lover (sooo)  
And I'll be right there when she need just a hug of some love  
Your family knowss, that you're in good hands with this man and  
Here's where I make a standing

You're my love angel  
Swooping down on me  
Keep you in my life just to whip that thing on me  
Then so, shawty I know (shawty I know)  
And this my chance to really let you no, no baby

[Chorus]

You'll never have to wonder where the love went (love went)  
If you need it girl I'm like an automatic button  
We're going somewhere we can have fun in the sun and  
Been goin' at it two weeks girl, thats really somethin
