

Where Does It Lead

[Miriam Makeba](#)

Where does it lead this stranger love of mind?
Only heaven and the lilies know
Where does it lead this strange love of mind
I must go down where the lilies grow
Play on the lily read lonely low
Play to him till he head to my world
Where does it lead this stranger love of mind
Only heaven and the lilies know
Play on the lily read lonely low
Play to him till he head to my world
Where does it lead this stranger love of mind?
Any where it takes me I will go.
