Botanic Mistress

Millencolin

All I wanna do is live my life with you
And tall you've gotta grow, I'll give you H20
And all I want to do is live a simple life here with you
I felt like Travis Bickle, tyrannical, lonely and blue
I don't know why I went to botanical but there I met you
You made me go from blue to green just in time before I got a Mohawk
When we're together, say we look like brook lime
And you can't talk or walk but I love your leafstalk
All I wanna do is live my life with you
And tall you've gotta grow, I'll give you H20
And all I want to do is live a simple life here with you
Your way, I'll send no billet-doux
If you rather want me to I'll buy a green house for you
You'll always be on the sunny side of my heart
And I hope you don't dry out at times when we're apart
Hope you don't leave me in the cart
As I said, I really hope that you don't leave me in the cart
'Cuz if you do dry out then that will truly break my heart
I'll feel like Bickle once more and maybe I will lose it
Go insane and start a gun war
All I wanna do is live my life with you
And tall you've gotta grow, I'll give you H20
And all I want to do is live a simple life here with you
Yeah, 'cuz all I wanna do is live my life with you
And tall you've gotta grow, I'll give you H20
And all I want to do is live a simple life here with you
