

# Wear It Out

Gerald Levert

Baby, baby, baby, baby You got that  
That it's too good I don't deserve it kinda love  
That girl I'm calling in sick to work kinda love  
That sweaty funky dope kinda love  
That's what you got  
That call it a night kinda love That girl slow down I'm about to bust kinda love  
That don't stop girl, get it get it kinda love  
That back it up, break it off head boards knockin' kinda love  
That's what you got  
Call it a night kinda love Baby, I think I'm coming home early  
'Cause girl my body's yearning  
For what you did last night  
'Cause when you did it  
Ooh it didn't make no sense  
'Cause girl you know you know you know you know  
That you sure got a nigga spinnin' You got that  
That it's too good I don't deserve it kinda love  
That girl I'm calling in sick to work kinda love  
That sweaty funky dope kinda love  
That's what you got  
That call it a night kinda love That girl slow down I'm about to bust kinda love  
That don't stop girl, get it get it kinda love  
That back it up, break it off head boards knockin' kinda love  
That's what you got  
Call it a night kinda love Baby, wish you could feel what I was feeling  
'Cause girl when I'm inside you  
Girl, I'm so complete  
'Cause when we're apart  
I'm only half the man  
That I am with you  
And it's you that I need  
And all of that, all of that You got that  
That it's too good I don't deserve it kinda love  
That girl I'm calling in sick to work kinda love  
That sweaty funky dope kinda love  
That's what you got  
That call it a night kinda love That girl slow down I'm about to bust kinda love  
That don't stop girl, get it get it kinda love  
That back it up, break it off head boards knockin' kinda love
