

# One Size Fits All

## The Statler Brothers

Well, you might be a pauper or you might be a prince  
You might have great wisdom or only common sense  
You might be rich and famous or a complete unknown  
But there's one thing for certain when our Maker calls us home  
When He hands out the halos, one size fits all  
When you get your crown or glory, it won't be big or small  
Your stature on earth won't measure your worth  
In His eyes one size fits all  
You might walk a hard road or live on easy street  
Live from hand to mouth or have diamonds at your feet  
Yeah, you might have had a little or thought you had it all  
But the scales balance out when we meet our Makers call  
When He hands out the halos, one size fits all  
When you get your crown or glory, it won't be big or small  
Your stature on earth won't measure your worth  
In His eyes one size fits all  
When He hands out the halos, one size fits all  
When you get your crown or glory, it won't be big or small  
Your stature on earth won't measure your worth  
In His eyes one size fits all  
In His eyes one size fits all  
In His eyes one size fits all
