Let's Go Bowling

Camera Obscura

I don't believe in anything
So you may as well forget about me
It's time you took it upon yourself
To go join the other team
Forget about me
Anyway, I got myself some bowling shoes
An' they are all that I can see
With all my might I scored a strike
My friend you wouldn't believe
My teenage years were wasted all on me.

On Saturday I watched a film
It was black and white with Clark Gable in
I've seen that film one hundred times or more
How am I going to tell my friends
I won't be coming out with them no more?
Don't you know that I feel sad?
You only know how to get mad
