

# Animal Kingdom

## Darlia

Tiger in my arms should I be alarmed should I freeze,  
Or should I realise that this is life and how it should be,  
Teach me how to walk, how to talk like an animal,  
Shame it's just a game, fascination plays and drowns in a pool, I wanna know, what you know,  
I wanna know, what you know, Standing on a hill looking back at you wondering why,  
Do you have to serve or do you just prefer to come out at night, I wanna know, what you know,  
I wanna know, what you know,  
I wanna go where you go, cause it's such a long and lonely road, to the place, Message from a dove came from  
up above I read it out,  
Yeah it said its such a powerful love but it's not a love that's allowed, I wanna know, what you know,  
I wanna know, what you know,  
I wanna go where you go, cause it's such a long and lonely road, to the place,
