Days to Remember

Lior

These are the days I would like to remember
When regret gets the better of me
When time comes to sift through the debris
I hope I find my way back hereTo the cradle where we take cover
Dreaming alone, facing each other
Oh where the darkness floats on by
'Till the sunlight finds its way to our fragile bodiesOoooh, these are the days I would like to rememberNow and again I get brought down
Holding myself up to someone I will never become
Yeah somethings they never go away
I grow tired of searching for a lantern to light the wayWhat I've learnt in the great unknown
That the world outside is only but a mirror to your heart
And in this moment, of feeling free
Ooh, there's a place, there's a place for meOoooh, these are the days I would like to remember
Oh, these are the days I would like to rememberSo when I look down to the streets below
At all the splashes of colour through my cloudy window
I whisper this tune to serve me a reminder
For these are the days I would like to remember
These are the days I would like to remember
Ooh, these are the days I would like to remember
