

# Kill The Music Industry

## Cold

They change your faith  
It's gone to far to name the way you see  
The things they'll change  
Your life and control, your mind, I can't relate to it Sick of all this monotony  
Kill the fuckin' music industry They trust the way they feel  
In their minds it's time for us to scream  
The things they'll change  
Your life and control, your mind, I can't relate to it Sick of all this monotony  
Kill the fuckin' music industry Sick of all this monotony  
Kill the fuckin' music industry Kill the fuckin' music industry, xalot  
Why? Sick of all this monotony  
Kill the fuckin' music industry Sick of all this monotony  
Kill the fuckin' music industry Sick of all this monotony  
Kill the fuckin' music industry Kill the fuckin' music industry  
Kill the fuckin' music industry  
Kill the fuckin' music industry  
Kill the fuckin' music industry
