

First Crush

Empire of the Sun

White as snow
Light as air
Cherish the thought
Making more
She's like, all that I can, she's my song
She said, you're more than a friend that took me on
Ocean rose, lilac hair
It's like I've been here before
There's something more
Feels like called that again, she's my song
She said, you're more than a friend that took me on
She, she smiles at me (she smiles at me)
First crush, too much at once, the special one
Heart is racing a million miles tonight
When you're closer baby I change the time
All that goes on, I just want to be there
You've given me the rhythm to run
Heart is racing a million miles tonight
When you're closer baby I change the time
All that goes on, I just want to be there
You've given me the rhythm to run
Heart is racing a million miles tonight
When you're closer baby I change the time
All that goes on, I just want to be there
You've given me the rhythm to run
