

Tightrope

10 Years

Over exposure of repetition blinds ambition slowly
Frozen in motion, time is ticking by with every moment
No one takes notice of their incandescent adolescences glowing

Sweet songs won't last too long

Breathe in, deep

Stop holding your breath

We need peace

Closure and rest

Older and older

These wandering eyes never close up

A funeral for failure, now

Your final hour as a coward's over

Sad songs won't last too long

Breathe in, deep

Stop holding your breath

We need peace

Closure and rest

Tightrope stop walking on wire

And let go, euphoria

Tightrope stop walking on wire and fly

Breathe in, deep

Stop holding your breath

We need peace

Closure and rest

Breathe in, deep

Stop holding your breath

We need peace

Closure and rest

Tightrope stop walking on wire

And let go, euphoria

Tightrope stop walking on wire and fly
