

Magic Road

Mettle Music Collective

D. Dokken/John Norum

Gave no reason I should stay
Something deep inside tells me i should keep a place
I know its hard for you to understand
If I let you go hope you'll understand
I know how you feel been down that magic road before
But it isn't real what are you lookin' for?
you gave no words to stop the pain
we sight a moment like a grain of sand
I know its hard for you to understand

so many reasons lost within a glance
I know how you feel been down that magic road before
But it isn't real what are you lookin' for?
(guitar solo)
I know how you feel been down that magic road before
But it isn't real what are you lookin' for?
I know how you feel, do you know how I feel
But it isn't real what are you lookin' for?
I know how you feel been down that magic road before
But it isn't real
what are you lookin' for?...Baby
