Never Go Back

Camper Van Beethoven

Never gonna go back to the rat
Play another mafia show again
For a man who's had more feet kicked in his face than I can begin to countAnd if you see me sitting around
Thinking the same old thoughts over and over again
Or going back to old ways I've long ago abandoned
Please, tell me
Never go backThere might come a time when things between us get
Just a little bit too weird
We'll move to different cities for a temporary vacation
But it's just as you feared
Never go backIf you see me sitting around
Thinking the same old thoughts over and over again
Or going back to old ways I've long ago abandoned,
Please, tell me
Never go back
