

Need Tonight

LIVE

You never thought
we'd get this far.
The road was closed.
You never thought your wounds would heal.
Love would pass you by.
The scars of life have cut you deep
but time has a way. Say what you want but I know this love is real
If you believe in it
If you believe in it
If you believe in it
If you believe in it
The ebb of life can take so long
but the tide has turned.
Say what you want but I know this love is real.
If you believe in it.
If you believe in it.
If you believe in it.
If you believe in it. In the line of fire. Say what you want but I know this love is real.
If you believe in it.
If you believe in it.
If you believe in it.
If you believe in it.
Love's all we need tonight.
Love's all we see tonight.
Love's all we need tonight.
Love's all we see tonight.
