Family Man

Black Flag

do you want the family man or do you want the swingin' man?family manyou get the family man
family man
FAMILY man
with your glances my way, takin no chance on the new day
family man,with your life all planned;
your little sand castle built, smilin through your guilt, family man
here i come
here i come family man
i come to infect; i come to rape your women;
i come to take your children into the street;
i come for YOU family man, with your christmas lights already up,
your such a MAN when your puttin up your christmas lights,
first on the block;
family man
i wanna crucify you to your front door with the nails
from your well stocked garage family man;
family man;
FAMILY MAN
saint dad! father on fire! ive come to incinerate you
ive come home
