

Blue Eyed Lady

Status Quo

Little blue eyed lady
How come you're all alone?
I've been asking
No one seems to know
To whom do you belong
Little blue eyed lady The band are really moving
Everyone is grooving around
Little lady
You're still sitting down
Excuse me if you will
Little blue eyed lady The party's nearly over
Your eyes still read the same
Are you looking
For one who never came?
Are you a passing cloud
Or a new found baby? Little new found baby
How come you're all alone?
I've been asking
No one seems to know
Are you a passing cloud?
Little blue eyed lady
