

Going Home

[Luna](#)

I've seen her face
In those scented magazines All is forgivin'
I love her still
And we're home, home
Goin' home The Chrysler building
Was talkin' to the empire state
The twin towers
Were talkin' to each other Sayin', "All is forgivin'
I love you still
And we're home, home
Goin' home "What she saw in him nobody knew
It's a mystery
What she saw in him nobody could tell
Now it's history All is forgivin'
I love her still
And we're home, home
Goin' home And we're home, home
Goin' home
And we're home, home
Goin' home
