Bubblegum

FÃ˜XE

I just stepped in bubblegum
Why is everything going wrong?
Keys just fallen down the drain
Toothpaste is on my shirt again

I just stepped in bubblegum
Frankie tried to kill herself
We just couldn't stay in love
Why is everything going wrong?

I just got back to my house
But it burned down
And my cat has turned to ash
So I went out for a drink
But it was spiked
I was getting old that night

I just stepped in bubblegum
Frankie tried to kill herself
We just couldn't stay in love

Everyday is a bad day for me
The rain brings out the sad memories
And everyday is a bad day for me
I'm leaving here
I'm leaving here

'Cause everyday is a bad day for me
The rain brings out the sad memories
And everyday is a bad day for me
I'm leaving here
I'm leaving here
B-b-b-bye
