

# Strange Condition (DJ DLG Remix)

Morgan Page

Read me the letter, baby,  
Do not leave out the words.  
Stories and cigarettes ruined lives of lesser girls,  
And I wanna know,  
Cause I want you to know, And its a strange condition, condition, condition.. Send me the money, baby,  
Do not leave out the wage.  
You know you're the best thing ever  
To come out of this place,  
Hey I want you to know,  
Cause I wanna know And its a strange condition..  
A day in prison,  
Its got me out of my head  
And I don't know what I came for,  
I want you to know... So leave out the others, baby,  
Say I'm the only one,  
Cut out the uniforms  
And settle with the sun,  
Hey I want you to know, Cause I wanna know, And its a strange condition,  
A day in prison,  
Its got me outta my head  
And I don't know what I came for,  
I want you to know... I want you to know...  
I want you to know...  
..I want you to know I want you to know...  
I want you to know... And it's a strange condition.. condition..  
And it's a strange condition.. condition..
