

# Long Way Down (feat. Sarah McLachlan)

## Swollen Members

And it's a long way down

It's a long way down

It's such a long way down

To the place where we started from Yo, I'm still trying to figure out this Venus and Mars thing

But every time I see you, all I hear is a harp string

We chilled last night, I had to record this

Listen to Portishead making love in the forest We're not stuck in this orbit, it's gonna work out for us

So gorgeous like the voice of the woman gracing the chorus

A newborn in its pure form gentle and precious

We connect on more than just mental, don't let this shit stress us I'm okay if you're okay, I know it sounds clich

But we built this whole relationship from sand and clay

Now we're so strong, we've got a concrete bond

And it completes so solid, I had to write this song And it's a long way down

It's a long way down

It's such a long way down

To the place where we started from We met when we was young, two hearts that beat as one

I knew it from the start not till death do us part

Nothing compares to you

(Keep blazin') I'm a fine young cannibal and you drive me crazy

I know your looks attracts guys but that don't faze me

Soul mate, make me feel like they got nothing on me

Just to taste your lips plus your voice is calming I know it's hard babe 'cause I'm always on tour

But my love is fucking pure and that's for sure

Been around the world, feel like I've covered whole earth's surface

Stressed out to the point of asking if it's worth it Sometimes it trips me out kid 'cause you're so perfect

I gotta keep working, striving and building

So we can get a house, have kids and grand children

Till then I'll make sure you don't regret

That you gave me another chance, girl I won't forget It's a long way down

It's a long way down

It's a long way down

It's a long way down Listen to me man, make sure you love what you do

'Cause it's gonna take a time for anyone to get to the ultimate goal

And as long as you love what you're doing

Doesn't matter how long it takes and when it finally does happen Try to remember how hard you worked to get there

And appreciate that shit

Keep climbing, Battleaxe I'm shark where you swim sharp as a dart in your skin

We've been given a title that's not hard to defend

Not just my partners my friends, see this from start till the end  
With words that alter the wind 'cause we assault with a pen  
And hit with the song, no problems here, we getting  
along  
Take turns from learning from our mistakes, admit when we wrong  
And everybody knows how to fight to shows that are tight  
A cobra that strikes, nobody's sober tonight  
Take a walk on the wild side, give me beats and I'll never die  
I'll hold your mind like a hypnotist, swing the watch into overdrive  
There's no rabbit or wand, my habits are ripping a song  
The magic comes from the act of people waving their arms  
I'm as sane as I was, given and receiving the love  
Living and breathing this stuff with Rob, the Viking on drums  
Battleaxe warriors, Madchild Prevail  
This is music for ya'll bars notes and scales  
And it's a long way down  
It's a long way down  
It's such a long way down  
To the place where we started from
