Your Girl

Grace Potter

I could make you mine
I'm so tempted to touch you
I'm dying to cross the line
But I like your girl too much
I never wanted to meet her
But you let me
So you can't tempt me no more
And you can't have it both ways baby
So stop (stop) making me burnI wish I never met your girl
I wish I never met your girl
'Cause I really like her
I wish I never met your girl
I wish I never met your girl
And I don't wanna hurt her
I wish I never met your girl
Your girl, your girl, your girl, ah, ahWhen she's not by your side
You let our bodies touch
I'm trying to put out the fire
'Cause I like your girl too much
When she was a stranger
It was so easy
Living in my dream but now
I can't shoot down an angel
Just because I want to be your midnight queen, no noI wish I never met your girl
I wish I never met your girl
'Cause I really like her
I wish I never met your girl
I wish I never met your girl
And I don't wanna hurt her (don't wanna hurt her)
I said I wish I never met your girl
Your girl, your girl, your girlClose my eyes every night
Try to dream about you but I only see her face
Thought my heart wants you now
I can live without you now but talk about you never, ever have to sayWish I never met your girl
Wish I never met your girl
'Cause I really like her
And I wish I didn't like your girl
Wish I didn't like your girl, but I do
And I don't wanna hurt her

I said I wish I never met your girl
Your girl, your girl, your girl
I wish I never met your girl
Your girl, (your girl) your girl, (your girl) your girl (your girl)
