

Somebody Like You

Max Elto

[Verse 1]

And I found trust

Oh, I know, very much

Oh, I found it now

With somebody like you[Verse 2]

Oh, and I found comfort

Oh, I took what I deserve

I took something new

With somebody like you[Bridge]

And I don't even mind them asking

About someone just like you

And I don't even mind them asking

Cause I know that it's true[Chorus] [x2]

Somebody like you

Somebody true

Somebody like you

Somebody new

Can you feel it?[Verse 3]

So tough in luck, too bad it's over

The story of me and you

In the end, it was all worth it

With somebody like you[Bridge]

And I don't even mind them asking

About the time that I spent with you

And I don't even mind them asking

Cause I know it's true[Chorus] [x2][Hook] [x2]

Eyes open wide

I see it now for the first time

Stay in my life

Cause I see you now for the first time[Chorus][Outro]

Somebody like...

Someone like you, you, you
