

# All That You Are (x3)

## Econoline Crush

If I said it, I meant it  
I'm not really demented  
I'm just saying it's been said again and again  
Not that I'm all that grounded  
I'm already dumbfounded  
I'm a liar believe me, baby  
Well that's all you are  
You're just one shining star  
Maybe everything's changed  
And maybe I stayed the same  
What does it matter to me now, anyway  
If I ever regret it
