Water On The Ground

Eric Clapton

Water on the ground, cloud on the sun
Moon on the rise and the wind on the run
But you know it's only water
Water on the ground
Snow is falling, weather is cold
Maybe I'm just getting old
And I think it's only water

Water on the ground
Back to the rivers, back to the sea
Keeps on running, just like me
But you know it's only water
Water on the ground
