Colors

Loona

Summer, the leaves are green
winter the naked trees
springtime a new age is born
in the fall there's an early dawn
and the colors embrace the sunTell me what, [what] is wrong [is wrong]
we all wanna be free in our homes
we all want [we want] to live [to live]
in peace and in harmonyColors of the earth blue and green
colors, there's no difference
between you and me
the color of your heart,
U should be proud inside
a solution comes to mind ...
Don't see the world in black and whiteFlowers that smell so sweet
nectar of the honey bees
and the colors on the butterflys
there's a beauty within a cry
people dyin don't ask me whyTell me what, [what] is wrong [is wrong]
we all wanna be free in our homes
we all want [we want] to live [to live]
in peace and in harmonyColors of the earth blue and green
colors, there's no difference
between you and me
the color of your heart,
U should be proud inside
a solution comes to mind ...
Don't see the world in black and whiteWhy can't we see
that the beauty lays in U and me
if you'd just look around you
you know that it's wrong
before everything we have is goneColors of the earth blue and green
colors, there's no difference
between you and me
the color of your heart,
U should be proud inside
a solution comes to mind ...Colors of the earth blue and green
colors, there's no difference
between you and me
the color of your heart,

U should be proud inside
a solution comes to mind ... [comes to mind]
Don't see the world in black and white
