

# Midnight Walker

## Norther

I am here again  
When the day is done  
I'm back again  
To steal your life And I won't go away  
Tonight's the night to die  
You can try to run  
But you will die The end end is near  
Look at me  
You'll feel the fear I'm your Master,  
Emperor, the King  
I will always rule your night  
You must run faster  
The death is in the ring  
Staring right into your eyes I'll take away your life  
And end your pain inside  
I want to die with you, like you  
I am the deadly stalker I am the Midnight Walker  
The one you try to hide  
Now say your life goodbye I'm the shadow behind you  
That you can't see  
But you know it's there  
The day is rising And I'm fading away  
Daytime has made you free  
But only for today  
Dusk is falling And once again  
I'm in your head I'm your nightmare,  
Fantasy and insanity  
Only thing you see  
Death will make you free So walk a little closer  
And give your life to me  
Let me end your pain I'll take away your life  
And end your pain inside  
I want to die with you, like you  
I am the deadly stalker I am the Midnight Walker  
The one you try to hide  
Now say your life goodbye I'll take away your life  
And end your pain inside  
I want to die with you, like you  
I am the deadly stalker I am the Midnight Walker

The one you try to hide  
Now say your life goodbye
