

Working with Meat

Jack Off Jill

We are desensitized
Television did not break me
Been broke since I was born
I'm breaking up with you
We are desensitized
Shove comfort up my nose
I feel dysfunctional
But numb enough for two
We are desensitized
I lost my only friend
Left here alone again
You left me here alone
We are the meat you work with
This is your sense of failure
If you work me way too long
The failure stains your hands
We are the meat you've eaten
Cut us with your sharpest knife
You've been away so long
The maggots eat away
We are desensitized
Television does not hate me
Had hate for way too long
I hate you very much
We are desensitized
Shove comfort up my nose
I feel dysfunctional, but numb enough for two
We are the meat you work with
This is your sense of failure
If you work me way too long
The failure stains your hands
We are the meat you've eaten
Cut us with your sharpest knife
You've been away so long
The maggots eat away
We are all new-wave faggots
Digesting old drug habits
We've been away so long
The maggots eat, the maggots eat away
