

# Goodbye Mama

## Golden Earring

Oh boy watch it, here I am  
Want the world to tell I'm coming as loud as I can  
Told my boss that my job was free  
Well I conquer the world indeed  
And that's so fine, I make you all mine  
I'm just thinking of today, there's a lot I gotta say Goodbye mama  
na, na, na, na, na  
Goodbye mama, goodbye mama  
don't stop me now  
Goodbye mama All my friends are coming with me now  
Exactly doing the same, through thick and thin anyhow  
There's really something I want you to do  
Before the moving fever gonna get you too  
Throw away your act, for really that's a fact  
I'm just thinking of today, there's a lot I gotta say Goodbye mama  
na, na, na, na, na  
Goodbye mama, goodbye mama  
don't stop me now  
Goodbye mama Listen my friends what I tell you now  
The world is in hands of too old a crowd  
So make up your mind before it gets too late  
And conquer the world yeah, any day
