

# You Didn't See Me

## The Isley Brothers

Oh no, no, no, no, no  
No, whoa  
I still love you, baby  
You know, you know You didn't see me  
But I saw you  
You didn't see me  
But I saw you I can remember those nights and days again  
Sometimes I cry for what might have been, babe  
You say you love me but how do you know?  
If I didn't leave you then where did you go? You didn't see me  
But I saw you  
You didn't see me  
But I saw you Whatever is going on inside your mind  
Think about us, think about us and give us some more time  
And there's so much more I'm leaving unsaid  
'Cause there's that little voice inside of your head You didn't see me  
But I saw you  
You didn't see me  
But I saw you  
It's all about you, girl You're all about yourself  
You can't see nobody else  
You're all about yourself  
You can't see nobody else You're all about yourself  
You can't see nobody else  
You're all about yourself  
You can't see nobody else You didn't see me  
But I saw you  
You didn't see me  
But I saw you No, you didn't see me tonight  
But I saw you  
You didn't see me  
But I saw you  
It's all about you, girl You're so into yourself, babe, oh yes  
Ah, you can't see nobody, nobody else  
But I saw you, baby  
'Cause it's all about you, girl, oh yeah  
It's all about you
