Blundetto

(with Hindi Zahra)

Another voice in mind,
Another voice inside

Speaking words to me,
Making sounds for my ears
I'm a mountain old and high,
Sleeping under the moonlight
Cause you know, you know I'm blue

As the side of your heart is good to me
Is good to me

My silent breathing and your heart is healing
There's no other way to get inside
Do what you like boy, love me for real
It's only shaking in my heart

As the side of your heart is good to me
Is good to me

Another voice in mind
Another voice inside...
