

# Seasons

## The Summer Set

It's getting better with the seasons and the weather  
It's getting better and It's all because of you  
Come morning will still be together  
Oh girl, we're the best at what we do

We've been getting down to the sounds of summer  
Til we could get away and watch the seasons change  
Oh, it's the little things you do that drive me crazy  
Don't know what to do I just need you with me

Oh, but I can see that in a way you say  
Cause I've got the words and you've got the melody  
You've got me singing

It's getting better with the seasons and the weather  
It's getting better and It's all because of you  
Come the morning will still be together  
Oh girl, we're the best at what we do

Hoo!

We've been getting down on the nights and weekends  
Lets take a chance on you and me (I knew what)  
Cause you wake up to what you want to see (Wake up)  
It's getting better now, It's getting better now

So keep up to the rhythm of your heart beat  
And sing out all the songs that you love  
We got time and this could take all night  
It's not love but it feels alright

Cause I've got the words and you've got the melody  
You've got me singing

It's getting better with the seasons and the weather  
It's getting better and It's all because of you  
Come the morning will still be together  
Oh girl, we're the best at what we do

Oh, what we do

Oooh

And I can feel it in the way the way you say  
So sing it back to me

Cause I've got the words and you've got the melody  
You've got me singing for you  
Cause I've got the words and you've got the melody  
You've got me singing

It's getting better with the seasons and the weather  
It's getting better and It's all because of you  
Come the morning will still be together  
Oh girl, we're the best at what we do

It's getting better with the seasons and the weather (And I can feel  
it in the way you say)  
It's getting better and It's all because of you  
Come the morning will still be together (And I can feel it in the way you say)  
Oh girl, we're the best at what we do
