

# Transit Ride

Guru

Watch the closing doors  
Watch the closing doors  
Watch the closing doors  
Watch the closing doors Right now I'm gonna take you for a ride  
Hold on tight so you don't slip or slide  
This train is packed, you don't get no seat, yup  
You gotta stand on your tired feet Where we goin' don't worry, you'll be there in a hurry  
But you better watch your pockets 'cause the thieves work quickly  
This is a New York transit thing  
Don't wear too much gold and hide your diamond rings And don't smile at anyone  
'Cause people out here, they like to travel with handguns  
You say you like this trip, well are you sure?  
You better step lively and watch the  
Watch the closing doors Watch the closing doors  
And I'ma watch the closing doors  
Watch the closing doors Here we go, as we ride through the underground  
Coming from Uptown, taking you downtown  
Headed for Brooklyn, Brooklyn, the planet  
Somebody stinks in here, I hope you can stand it Homeless people everywhere, holdin' cups for change  
And if you don't have none, they may look at you strange  
But this is all part of the scene  
And yo, check those kids 'cause they're startin' to scheme See them lookin' at you up and down?  
Oh yeah, they can tell that you're somebody from out of town  
Think they won't harm you? Well, they might  
And that ain't right, but everyday is like a fight Watch the closing doors  
Watch the closing doors  
Watch the closing doors  
Watch the closing doors Ah ahh, ahh ahh ahh  
I can't quit, I gotta do what I must  
'Cause I can take you on a ride with the lyrics I bust  
'Cause I'm a master, try to diss and I'll blast ya  
Any wack MC that steps up, is gettin' plastered Straight against the wall 'cause I don't stall  
I give 'em drama and trauma till they all fall  
And for those who don't know about the city life  
It's where we take no pity and the kiddies are trife Takin' the train is just part of it  
The next stop is Brooklyn, you're comin' to the heart of it  
You never know what will occur  
So just keep to yourself and watch the closing doors Step lively  
Step lively

Step lively And I'ma watch the closing doors  
I watch the closing doors Yeah  
B R double O K L Y N, New York City  
Takin' you on a transit ride with my man, Branford  
And I'm out
