

# Part of Me

[Lara Fabian](#)

Look in these eyes you'll see the dark  
That little space inside my heart  
The darkest side withholds the light  
The light that brightens me inside You don't know Angels don't fly, they have no wings  
It is another of those things  
That we make up, that we believe  
The real thing is not what we conceive You don't know, I won't let you see me  
I will hide, I will lie as true as can be  
You just don't have what it would take  
To be a part of me The darkest side withholds the light  
The light that shines, you can't deny You don't know  
You don't know, I won't let you see me  
I will hide, I will lie as true as can be  
You just don't have what it would take  
To be a part of me You don't know  
You don't know, I won't let you see me  
I will hide, I will lie as true as can be  
You just don't have what it would take  
To be a part of me These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart  
These arms are my heart These arms are my heart  
These arms are my heart
