The Concept

The Cranberries

Come here, my lover
Somethings on your mind
Listen to no other
They could be unkind
Hold on to the concept
Of love, always darling
Hold on to the concept
Of love, always
Take life between us
Live it like we choose
They'll never see us
I'll wait here you come
Hold on to the concept
Of love, always darling
Hold on to the concept
Of love, always
Night on night on night
Night on night on night
Night on night on night
Night on night on night
