To All of You

Syd Matters

The mirror doesn't look like them
I guess it never will
What would you say
If I took a piece for me?
Happiness is your best friend
It doesn't appeal to me
Have you ever seen me?
As I talk it lets you down
You're finally used to me
But they never talk your way
The universe is in your hands
That doesn't appeal to me
What would they say

If I took a piece for me?
Happiness is your best friend
It doesn't appeal to me
Have you ever seen me?
As I talk it lets you down
You're finally used to me
But they never talk your way
The mirror doesn't look like them
I guess it never will
What would you say
If I took a piece for me?
Happiness is your best friend
It doesn't appeal to me
Have you ever seen me
