

# Love Ain't Like That

[Faith Hill](#)

You can't buy it at the store  
Try it on for size  
Then bring it back if it don't feel right  
No love, love ain't like that I can't trade it in like an automobile  
That's got too many miles  
An' rust on his wheels  
No love, love ain't like that Love ain't that easy to define  
You can't build it by design  
It takes its own sweet time It don't fall from the sky  
Like a tiny drop of rain  
That hits you right between the eyes one day  
No love, love ain't like that You can't put your money down  
An' just roll the dice  
Think you're gonna win it all, some night  
No love, love ain't like that, love Love ain't that easy to define  
You can't build it by design  
It takes its own sweet time You can't buy it at the store  
Try it on for size  
Bring it back if it don't feel right  
No love, love ain't like that Love, no love, love, love, it ain't like that You can't trade it in like an automobile  
That's got too many miles  
An' rust on the wheels  
No love, love ain't like that No love, love, love, well, it ain't like that  
Love, love, it ain't like that It don't fall from the sky  
Oh, you can't spread it thin  
Can't buy it at the store  
[Incomprehensible] take it back again, ohh
