

# The Loudest Sound

## The Cure

Side by side in silence  
They pass away the day  
So comfortable, so habitual  
And so nothing left to say Nothing left to say  
Nothing left to say Side by side in silence  
His thoughts echo round  
He looks up at the sky  
She looks down at the ground Stares down at the ground  
Stares down at the ground Side by side in silence  
They wish for different worlds  
She dreams him as a boy  
And he loves her as a girl Loves her as a girl And side by side in silence  
Without a single word It's the loudest sound  
It's the loudest sound  
It's the loudest sound I ever heard
