

Night Owl

Souleye

Verse 1

Itâ€™s three in the morning and Iâ€™m not sleeping yet /
I donâ€™t have to Iâ€™m nocturnal, but Iâ€™ll be truthful /
I take a whole lot of vitamins to stay youthful, /
I eat at whole foods and mostly all my foods organic /
I care bout the temple that I live in /
Light an incense something made this it wasnâ€™t me /
I wonâ€™t claim it, watch the wave of fame hit, splash /
Away the pavement, leave with what you came with /
Never know your exit /
Doesnâ€™t really matter cause your already connected /
Fears are just illusions that try to make you reckless /

Take the four letter word fear thatâ€™s false evidence
Appearing real /

Chorus

Thereâ€™s no reason to be hopeless help is right there /
Thereâ€™s no lost and found if its missing you will find it /
I guarantee that every season is meaningful even when /
Youâ€™re freezing cold and things seem miserable /
Grab your coat lets go no time to waste /
When the race is on I could care less about what place /
I finish in hip hop no retiring, when making music for the /
World and its environment /

Verse 2

Imagine love as a river passing through /
Angles as the flew overhead as I drew /
And as I draw distance lands I feel the heart upon my hand /
Beat take command I just had a sip of green tea /
Ten commandments mixed with some yerba mate /
Can you stand it / Fear of a what flat planet /
They back handed the mother of creation /
And I canâ€™t stand it but still standing /

Not on my own because Iâ€™m with the Holy Ghost /
Heard tales of dynamic dimensions like Telos /
Two thousand seven and eight, pull up the van /
Weâ€™ll be late, Iâ€™m not guessing at all /
Iâ€™d rather freestyle and bounce around the room /
Like a bunch of heady dready kids / study herbal medicine /
Think of all the benefits from Venezuela to Venice beach /
And Montana, Alaska, Jamaica, and Alabama

Chorus

Thereâ€™s no reason to be hopeless help is right there /
Thereâ€™s no lost and found if its missing you will find it /
I guarantee that every season is meaningful even when /
Your freezing cold and things seem miserable /
Grab your coat lets go no time to waste /
When the race is on I could care less about what place /
I finish in hip hop no retiring, when making music for the /
World and its environment /

Verse 3

Never trade it in, sink to the depths of salvation /
Channel surfing serves no purpose rather be surfing /
Donâ€™t you know that interaction? /
Itâ€™s your life, my life, our life one love one world one day /
Get carried away Iâ€™m a Taurus man with the force to expand /
Give what I can, can a man give enough got a plan an Iâ€™m soaking it up /
I donâ€™t need any rum in the cup or coke in the club /
Rather be out in the at a festy, living with a family /
They tried to catch me they canâ€™t find me now Iâ€™m out /
Just dance to the beat /

Verse 4

Stop for a minute lets breath and think about it /
Small town shows being held in Minneapolis, Massachusetts /
Asheville, Ontario, and Houston, all around the globe thereâ€™s music /
Even in the most remote spots / you know they got some hip hop /
Healing arts, pulling out those Tarot cards /
In the lot or the park wide awake three oâ€™clock /
Spreading love and peace New Guinea to Long Beach /
