

If You Want My Love (feat. Joy Rose)

Incognito

(J.P.Maunick / G. Harvey / P. Lackey)There was a time when no one
Could ever take your place
(That's not the case anymore)
Took for granted that tomorrow was ours to playBoy things have changed
Nothing stayed the same
When you chose to move awayHaven't heard your voice in so very long
Say I've been missed but I wouldn't know
I might be better off living on my own
'Cos love won't last now that hope is gone
Promised the distance wouldn't change a thing
Now the fault is work, it's keeping you away
You'd try harder if you want my love
If you want my love
Careless intentions
Is what this has become
(I'm struck with a broken heart)
Here we're flowing on emotions
Of what once wasBoy things have changed
Nothing stayed the same
When you chose to move away
(move away)Haven't heard your voice in so very long
Say I've been missed but I wouldn't know
I might be better off living on my own
'Cos love won't last now that hope is gone
Promised the distance wouldn't change a thing
Now the fault is work, it's keeping you away
You'd try harder if you want my love
If you want my love
Looking back on how things used to be
No one could tell me that this would be our destiny
And now I'm facing life on my own without you baby
Though we're miles apart - you had my heartI'm tired of the confusion I'd rather just be friends
(There's no hope of a second chance)
No sense in going through the motions
Like it's not the end, like this is not the endHaven't heard your voice in so very long
Say I've been missed but I wouldn't know
I might be better off living on my own
'Cos love won't last now that hope is gone
Promised the distance wouldn't change a thing

Now the fault is work, it's keeping you away
You'd try harder if you want my love
If you want my love
