Think Of You Later (Empty Room)

Every Avenue

This might be my last chance
So maybe I should take it?
I just hope you're listening
To everything I'm sayingI miss the long drives, the car rides
The bad fights, the good times
The way you make me feel
Will never leave my mindThink of you later in my empty room
Where I, I will fall asleep alone
Think of you later in my empty room
Where I, I will fall asleep aloneSo quit your cryin'
And wipe the tears from your eyes
'Cause this is 'See you later'
I'm not into goodbyesWatch the brake lights
As I leave your drive-way
The warm nights will stay beside me
No matter where I goThink of you later in my empty room
Where I, I will fall asleep alone
Think of you later in my empty room
Where I, I will fall asleep aloneWatch the brake lights
As I leave your drive-way
The warm nights will stay beside me
No matter where I goThink of you later in my empty room
Where I, I will fall asleep aloneThink of you later in my empty room
Where I, I will fall asleep alone
Think of you later in my empty room
Where I, I will fall asleep aloneThink of you later in my empty room
Where I, I will fall asleep alone
